Success Tips

#1. Start Here with these single "word" songs everyone knows. Play the "G" word and "paint" the strings while singing along. Just like learning to speak your language as a child you soon learn to hear where the "words" fit.

#2. Start with these simple childhood songs. You will quickly learn the sound of the three "musical words" and within a short time you will naturally hear the difference between each word and know when to use it.
